

ASSESSMENT NOTICE

Thorough Divide Mining Company.
Location of principal place of business, Tonopah, Nye County, Nevada.
Notice is hereby given that at a meeting of the Board of Directors, held on the 24 day of November, 1921, an assessment (\$50.00) of two cents per share was levied upon the outstanding common capital stock of the corporation, payable immediately in United States gold coin, to the Secretary-Treasurer at the office of the company, Tonopah, Nevada.
Any stock upon which this assessment shall remain unpaid on the 6th day of December, 1921, will be delinquent and advertised for sale at public auction, and unless payment is made before January 15th, 1922, will be sold at the office of the company in Tonopah, on Tuesday, January 17th, 1922, at 10 o'clock A. M. to pay the delinquent assessment together with the costs of advertising and expenses of sale.
In order of the Board of Directors,
E. J. BRIDGEMAN, Secy.
111 N. Tonopah, Nevada, November 18, 1921.

CONDITIONS IN
VARIOUS CAMPS
ARE PROMISING

Mining conditions throughout Nye county are showing a steady improvement. Numerous sections are teeming with activity, but Royston continues to remain the big center of attraction, with Hornsilver in Esmeralda county following close behind. In fact, it would be difficult to forecast which camp is going to prove the biggest producing district, but at this writing honors are nearly even. While it is true that Royston can lay claim to the greater number of mineral discoveries, this is offset by the rich finds that have been made at depth on the Orleans mine at Hornsilver, where high-grade ore is exposed at 700 feet.
Royston now has a population of nearly 200 people, and everybody is busily engaged in leasing or prospecting the network of veins that traverse the district. The mineral area embraces about four miles and men can be seen in almost any direction one may gaze. They are busily engaged in search for the precious metals, and their efforts in a majority of instances are not in vain.

A mining town is in the building. Cubans are being moved in from other sections; new buildings are being constructed; business houses are being established; new tents appear daily and preparations are in order for the winter campaign of development that is to follow. Several leasers are making ready to start shipments at an early date, and before Christmas holidays have arrived it is quite evident that a substantial production will be in order.
Over at Hornsilver there is much activity. Four different companies, with strong financial backing, will shortly inaugurate development while several companies are already at work. The Orleans Hornsilver Mining company is making plans for a 75-stamp mill, and when the plant has been brought into commission custom ores will be received, in ad-

COATS IN SEVERAL STYLES
LOOK TO FUR AND EMBROIDERY

THE creators of coat styles, having agreed to disagree in the matter of the altitude for fall, presented at the beginning of the season coats that hang straight from the shoulder, coats that are belted, others with a close-to-the-figure bodice and capes or cape-like coats. It appears that fashion decrees that there is room for all of these varieties and the individual may follow her own sweet will in choosing whichever style she finds most becoming and most suited to her needs. In addition to these new modes the season takes a glance backward—a "gigering, longing look behind," evidently, and presents coats like the wrappy affair pictured above. In all of these styles sleeves are capacious and fur and embroidery used in an infinity of ways for trimming.
Sleeves and collars in coats, as in suits, appear to have focused much of the designers' attention on themselves. They are emphasized by embroideries and by emplacements of fur

dition to treating the product of the Orleans mine. The permanency of this camp is assured. It has passed the prospect stage, to all appearances, and a heavy production should follow during the coming year.

The mines and mills in Tonopah are operating to capacity. This applies, of course, to the four large producers—Tonopah Belmont, Tonopah Extension, Tonopah Mining and West End. Other properties, including the New California, Tonopah, Midway, Montana, Rescue-Eola, Cash Boy, North Star, MacNamara and Crescent, are operating steadily with satisfactory results. The production is being steadily augmented, as was evidenced this week when a shipment of \$153,000 was made from the Tonopah Belmont. This billion resulted from a clean-up of the mill cover-

ing the last half of October, and established a new record.

Outlying districts—Royston and Hornsilver being eliminated—are showing much activity, and news of important mineral finds is being received daily. Argentite is giving a good account of itself, and the showing on the Sanger and Ecklund properties is reported as being fully up to expectations. Early spring promises to witness greater activity than at present, but development will go steadily forward throughout the winter months, with prospects bright for a number of shippers being developed.

At Silverton development on the holdings of the Treasure Hill Nevada Mines company has resulted in a number of important discoveries being made, while over at Clifford,

Bellshelen, Silver Bow and Eden Creek there is considerable activity. Weopah is also quite a busy place, two companies being engaged in developing promising properties.

Conditions as a whole look promising, and it is evident that a mining boom for southern Nevada is in the ascendancy. Early spring will tell a wonderful story regarding mine development. The prospector and mine builder is going to have his say in the future, and southern Nevada is the one bright spot in the realm of mining just at the present time.

FOOTBALL FANS
ON EDGE COAST
GAME SATURDAY

(By Associated Press)
STANFORD UNIVERSITY, Cal., Nov. 18.—University of California and Stanford university, two traditional athletic rivals, meet in the new Stanford stadium here tomorrow in their twenty-seventh football game.

Although Stanford is not the favorite in tomorrow's clash, eleven from the local institution have won more games than California in the past, the total score standing 12 for the Cardinals, nine for U. of C. and five tied.

REWARD

Will pay \$250 for the arrest and conviction of one or all the parties who broke into the shaft house of the Apex Mines company and took a 19 h. p. motor and starting box. Will pay a further reward of \$100 for the return of the motor and starting box. A further reward of \$100 will be paid for information leading to the arrest and conviction of one or all the guilty parties.
J. G. CRUMLEY,
N14-4.

Last
Spoonful
Same as
the First

Calumet is made under such exacting conditions—packed in such a scientific manner, that its leavening strength and purity never vary. It retains its original strength for months after leaving the factories.

When you tip the can to get the last spoonful, you know your baking will turn out all right—the last spoonful is the same as the first. This uniform quality of

CALUMET
BAKING POWDER

is cause for its big demand. Housewives know they can depend upon the results obtained—that climatic conditions or temperature cannot deteriorate its positive leavening power.

When you buy baking powder remember these facts—that a uniform leavener means bakings that do not vary in quality—that Calumet is uniform.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a 16, when you want it.

JULES V. BARND LEAVES
FOR AN EASTERN VISIT

Jules V. Barnd, president and general manager of the Consolidated Spanish Bell Silver Mining company, left this morning for Tokyo, Japan after a visit of a short time there.

He will take his family to Los Angeles to establish a new home, and will then return to Tonopah to look after development at the Spanish Bell property.

A bird like this
makes a model husband

HER NICE new husband.
STEPPED OUT of the house.
WHISTLING LIKE a bird.
WHICH ALARMED young wife.
ESPECIALLY WHEN:
SHE FOUND she'd picked
THE WRONG package.
AND INSTEAD of oatmeal
HAD GIVEN him birdseed.
BUT DON'T think from this,
THAT EVERY guy,
YOU HEAR whistling,
HAS NECESSARILY,
BEEN ROBBING the canary.
OTHER THINGS inspire.
THE ALMOST human male,
TO BLOW through his lips,
AND MAKE shrill noises.
A RAISE, for example,
OR A day off when
A DOUBLE header is on.
OR AN everyday thing.
LIKE A good drag.
ON ONE of those smokes.
THAT SATISFY.
WHICH CERTAINLY are,
THE REAL birdseed.
FOR MAKING men,
TRILL THEIR pipes for joy.
SO LADIES, if hubby
GOES AWAY whistling,
YOU NEEDN'T worry.
ALL'S SWELL.

WHEN you say that Chesterfields "satisfy," you're whistling. You know—the instant you light one—that the tobacco in it are of prime selection, both Turkish and Domestic. And the blend—well, you never tasted such smoothness and full-flavored body! No wonder the "Satisfy-blend" is kept secret. It can't be copied.
